### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor render the instantly claimed invention obvious to one of ordinary skill in the art. There is no teaching in the art to show the formation of a coherent layer of nanoparticles as is now claimed. The prior art does teach the use of cross linker and linking to obtain nanoparticles. However, there is no showing nor teaching in the art to produce the claimed layer by the claimed method of partial crosslinking.. The prior art of record does not give any motivation or reasoning to modify the prior art processes to partial cross link and create a layer as is claimed..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
